Qualified and Professional Contractor, Sub-Contractor and Service Provider

CCW Services, LLC

Founded by Greg Thompson in June 2006 with the knowledge and experience of 30 years in electronics, safety and security. Understanding, knowledge, and compliance with life safety, building, and electrical codes is part of every project.

CCW Services, LLC serves industrial, commercial, educational, health, and governmental facilities with systems designed for specific applications to meet the needs of the client.

We can work directly with the end user or as a subcontractor on large projects. Each system we design and/or install is with customer satisfaction and end results of the problem solved.

CCW is fully aware of life safety codes, building codes, and National Electrical Codes and each installation is fully compliant.

We are fully qualified and certified as an SBA small emerging business, VA certified Veteran Owned Small Business (VOSB) and Service Disabled Veteran Owned Small Business (SDVOSB), Ohio EDGE certified, and Columbus Public Schools LEDE certified and CCR and ORCA Registered.

These are some of the partners that we have direct relationships

ICOTECH, Inc.

DEFENTION SECURITY ELECTRONICS

Icotech, Inc. was established to fill a void in the detention and security industry, and serve these industries as designer and manufacturer. The company designs and fabricates various types of detention control systems, from electronic circuit and board level products to panel layout and design, system integration, as well as networked, enterprise class computer-based command and control systems.

IcoTech, Inc. has projects all around the country that date back to 1985 which are still in service, and these facilities are fully supported with spare parts and unlimited free phone support.

With over 20 years of experience and 1500 completed jobs, Montgomery Technology, Inc. is the leading manufacturer of Detention Control Systems in America. Operating on the philosophy that *the simpler the system, the higher its reliability*, MTI has made a name for itself by producing reliable products that remain on the cutting edge of technology.

MTI is the proven industry leader in technology, stability and backwards compatibility. The systems provided offer cost effective long term solutions for the detention facilities of today, from design build to retrofits, this is "The System"..

Focused on Your Security

Whether you're looking for a small business solution or an enterprise-class system, Pelco offers the broadest array of network and traditional analog solutions to protect the people, businesses and operations that depend on you, each and every day.

With more than 20 years dedicated solely to the business of video security, Pelco is the most sought-after choice, trusted to provide a level of security second to none. From city centers, airports and hospitals to campuses, commercial, industrial and retail facilities, Pelco delivers reliable solutions throughout the globe.

SOFTWARE HOUSE

Tyco International's Software House technologies are currently installed in more than 5,500 installations worldwide, touching all vertical markets. Over 170 of the Fortune 500 Companies use C•CURE.

Software House has established itself in the security industry as an innovator by being the first company to apply sophisticated database management software to access control and security management systems. At a time when most security companies focused on selling hardware, Software House identified and developed a market niche for sophisticated software-based computerized solutions to manage and integrate diverse security hardware devices.

Vicon is an industry-leading provider of complete, IP-based security solutions. Our open-platform ViconNet video management system with user-friendly "Events Management" capabilities allows for easy integration with many third-party security solutions, including access control, license plate recognition and perimeter detection software.

Use ViconNet to create a powerful, flexible and expandable video-centric system that's suitable for any environment.

Greg Thompson

greg@ccwservices.com

As Founder and President of CCW Services, LLC, Greg has led the growth of the company with a “hands-on” approach from the beginning. With his expertise knowledge in system design, installation, troubleshooting, maintenance, and project management that covers fire, security, data cabling, phone systems, and correctional facility security systems.

Greg has used his 30 years of industry experience with companies that include Acree Daily, Electronic Technologies Corporation, Ingersoll Rand Security Technologies, and The Idaho Department of Corrections to form the foundation and launch CCW Services with an emphasis on quality and long term customer service.

With a focus on commercial, industrial, government and correctional facilities, Greg has overseen projects from the design stage to final completion that range from \$500.00 to several million dollars.

Greg is an 11 year veteran of the U.S. Air Force, a graduate of Boise State University, has completed Six Sigma certification from Villanova University, and is a certified electronic consultant for the American Correctional Association.
